High quality SMA SMP IPEX and flying wire cable assembly

Cable assembly

Zebax offers variety of high quality SMA SMP IPEX and flying wire cable assemblies for high speed applications.

ZX00SMAS

ZX00SMAS **ZX00SMAH** ZX000x1036 ZX000x1136 are SMA cable assembly converting 50Ω SMA connector to 2 pin **Socket** or 2 pin **Header**. Ideal cable assembly for **≤2GHz** applications. Maximum 0.53dB attenuation.

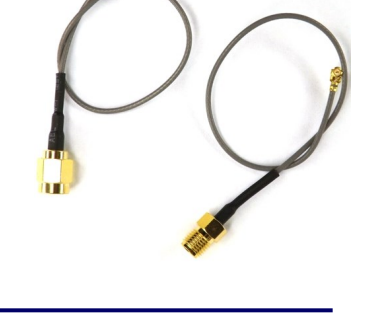

Application: Signal and power measurements

ZX00SMA-IPEXMHF4L ZX00SMA-IPEX37

ZX00SMA-IPEXMHF4L **ZX00SMA-IPEX37** are SMA cable assembly converting 50Ω SMA connector to IPEX37 and IPEX MHF4L connectors. Ideal cable assembly for signal measurements, antenna, HSIC interface and more.

Application: Pre-Bringup, bringup, test, debug

ZX00SMA-SMP

Offers High frequency 50Ohms RF High Speed util RG405 coax cable assembly. The cables are offered in : Jack or Plug configuration. The **ZX00SMA-SMP** assemblies are rated at <1.2dB insertion loss at 20GHz.

Application: Pre-Bringup, bringup, test, debug

ZX00SMA-SMA

ZX00SMA-SMA is SMA cable assembly offered in 36" length with the following configurations:

- 1- SMA Jack to SMA Jack
- 2- SMA Plug to SMA Plug

The cable assembly utilizes RG316U coax cable with 50 Ohms SMA connectors.

Application: Pre-Bringup, bringup, test, debug

ZX00ACC-SS flying wire

28guage, AWG, flying wires with pin socket at each end. The **ZX00ACC-SS** are offered in 3", 6", 9" and 12" lengths.

Application: Pre-Bringup, bringup, test, debug
